Nationwide service coverage

Prescott's Inc. has over 30 factory trained service/sales technicians spread out across the United States. No independent contractors are used, only direct employees.

Service/sell all brands

All of our technicians have received factory training by all the major surgical microscope OEM's including Carl Zeiss and Leica. Our technicians have also received Operating Room protocol training and blood borne pathogen training. All technicians have current TB screening documentation.

Massive parts inventory

At any given time we have over 300 complete surgical microscopes systems in inventory as well as 10,000 square feet of service parts. Our technicians also have local parts inventory specific to scopes in their geographic region.

Two-year parts and labor guarantee

All microscopes sold by Prescott's, Inc. are covered by a full two-year parts and labor guarantee. In the event of a service issue, a factory trained service representative will arrive on site within 24 hours.

No charge evaluations

If you would like to "try before you buy", we offer no charge evaluations on most refurbished microscopes.

Huge savings

Typical costs are 40% to 50% less than charged by the OEM's.

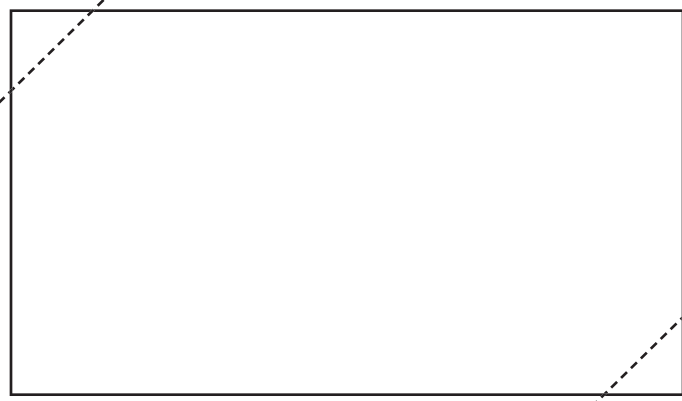

Convenience of one

One toll free phone call, one purchase order, one invoice for all of your surgical microscope needs.

FDA registered

As well as ISO 9001-2000 compliant.

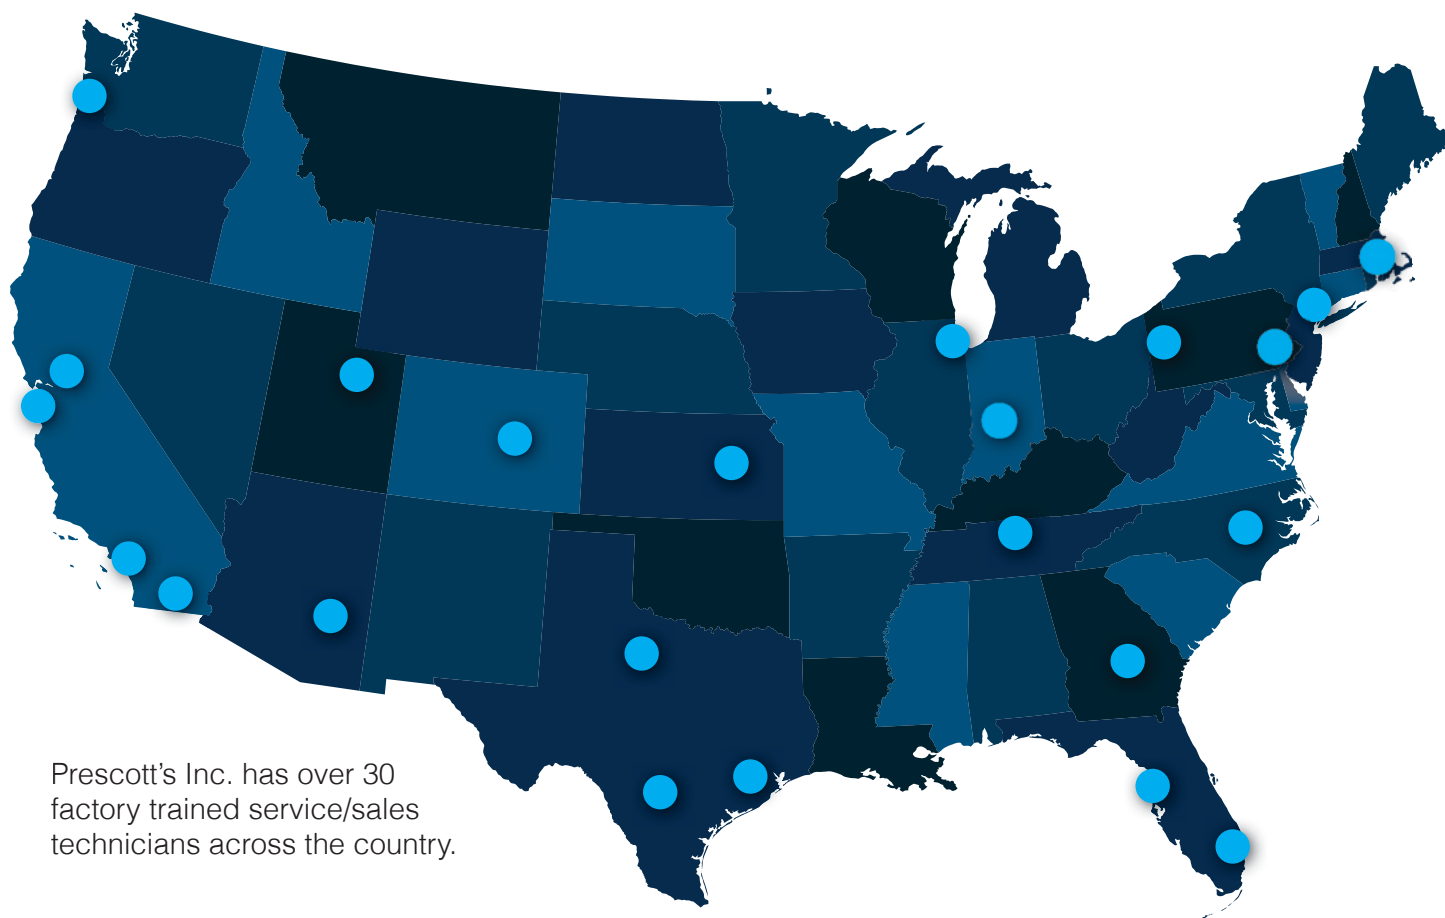

Contact your local Prescott's representative or call 800-438-3937 for all your microscope needs.
